CANCER INSTITUTE (WIA)

(Or)

CANCER INSTITUTE (WIA)

Top-left corner / Bottom-right corner
Not Allowed: Centered / Random placement

Placement (Left or Right Side Only)

- The logo must always be positioned either on the left or right side of the layout – never in the center or at random positions.
- This ensures visual consistency and brand recognition across all materials.
- Placement should align with the overall design balance – for example, if text is left-aligned, the logo may be placed on the right side to maintain harmony.

Single Use per Page / Layout

- The logo should not appear more than once on the same page, frame, or visual row.
- Repeating the logo can dilute brand impact and appear visually cluttered.
- When multiple brand assets are present (e.g., in presentations or banners), use one clear and prominent placement of the logo only.

Allowed: One logo at the top-right of the page

Not Allowed: Logos repeated at top and bottom of the same page

CANCER INSTITUTE (WIA)

Co-Branding Hierarchy

- In any co-branding scenario, the Corporate Identity (CI) logo must always appear visually dominant or placed higher than partner or sponsor logos.
- Maintain a clear visual hierarchy: the CI logo should be slightly larger or occupy a more prominent position (e.g., left or top placement).
- Ensure adequate spacing between logos to preserve individual identity and prevent overlap.
- The CI logo must never be placed alongside or visually associated with any tobacco or alcohol product branding; ensure strict separation to avoid unintended endorsement or co-promotion.

Allowed: CI logo on the left/top; partner logos on the right/bottom, smaller in size

Not Allowed: Partner logo placed above or larger than CI logo
